australian books and authors in the american marketplace 1840s 1940s explores how australian writers and their works were present in the united states before the mid twentieth century to a much greater degree than previously acknowledged drawing on fresh archival research and combining the approaches of literary criticism print culture studies and book history david carter

and roger osborne demonstrate that australian writing was transnational long before the contemporary period in mapping australian literature s connections to british and us markets their research challenges established understandings of national imperial and world literatures carter and osborne examine how australian authors editors and publishers engaged productively with their american counterparts and how american readers and reviewers responded to australian works they consider the role played by british publishers and agents in taking australian writing to america and how the international circulation of new literary genres created new opportunities for novelists to move between markets some of these writers such as christina stead and patrick white remain household names others who once enjoyed international fame such as dale collins and alice grant rosman have been largely forgotten the story of their books in america reveals how culture commerce and copyright law interacted to create both opportunities and obstacles for australian writers

diplomat and author george payne rainsford james was well versed in historical research methods even serving for a time as britain s historiographer royal in the sweeping epic the king s highway james unfurls a classic tale of two friends and the young boy who brings them together amidst tragic circumstances

a powerful account of how coerced migration built the british empire in the early seventeenth century britain took ruthless steps to deal with its unwanted citizens forcibly removing men women and children from their homelands and sending them to far flung corners of the empire to be sold off to colonial masters this oppressive regime grew into a brutal system of human bondage which would continue into the twentieth century drawing on firsthand accounts letters and official documents graham seal uncovers the traumatic struggles of those shipped around the empire he shows how the earliest large scale kidnapping and transportation of children to the american colonies were quickly bolstered with shipments of the poor criminal and rebellious to different continents including australia from asia to africa this global trade in forced labor allowed britain to build its colonies while turning a considerable profit incisive and moving this account brings to light the true extent of a cruel strand in the history of the british empire

the first in depth study of the indian creative industries this book provides a comprehensive mapping of the indian creative industries and its policy landscape developing and defining key concepts and terms and offering detailed case studies of specific sectors geographic regions and governance structures using an ecosystem framework this book focuses on strategy policy tangible and intangible infrastructure and funding and investment to understand the main drivers and barriers across nine sub sector value chains with investment from global brands into many sectors it tracks how indian creative industries are fostering

innovation and design for social and ecological sustainability it also delves into india s informal economy to share key policy insights the volume will be of great interest to scholars and researchers of public policy business studies and south asian studies it will also be a key document for foreign investors willing to invest in one of the fastest growing and stable economies in the world

unconscious bias persistent prejudiced behaviour that clashes with our consciously held beliefs its effects can be corrosive even lethal it robs organizations of talent science of breakthroughs politics of insight individuals of their futures and communities of justice so what real world steps can we take to counteract it drawing on ten years immersion in the topic jessica nordell digs deep into the cognitive science and social psychology that underpin efforts to create change and introduces us to the people who are practising a range of promising methods the police using mindfulness to regulate high stress situations the doctors whose diagnostic checklists help eliminate bias in treatment the lawyers and educators striving to embed equality all the way from the early years playroom to the boardroom biased behaviour can be ended this path breaking inspiring and indispensable book shows us how

finalist for the nypl helen bernstein award for excellence in journalism the lukas book prize and the royal society science book prize 2022 nautilus book award silver medal american society of journalists and authors honorable mention in general nonfiction named a best book of the year by world economic forum aarp greater good and inc the end of bias is a transformative groundbreaking exploration into how we can eradicate unintentional bias and discrimination the great challenge of our age unconscious bias persistent unintentional prejudiced behavior that clashes with our consciously held beliefs we know that it exists to corrosive and even lethal effect we see it in medicine the workplace education policing and beyond but when it comes to uprooting our prejudices we still have far to go with nuance compassion and ten years immersion in the topic jessica nordell weaves gripping stories with scientific research to reveal how minds hearts and behaviors change she scrutinizes diversity training deployed across the land as a corrective but with inconsistent results she explores what works and why the diagnostic checklist used by doctors at johns hopkins hospital that eliminated disparate treatment of men and women the preschool in sweden where teachers found ingenious ways to uproot gender stereotyping the police unit in oregon where the practice of mindfulness and specialized training has coincided with a startling drop in the use of force captivating direct and transformative the end of bias a beginning brings good news biased behavior can change the approaches outlined here show how we can begin to remake ourselves and our world includes illustrated charts

immunological concepts in transfusion medicine provides a thorough discussion of the immune aspects of blood component transfusion with in depth information on the intricacies of immune responses to blood components and the immune processes that may be initiated in response to blood exposure written to increase knowledge and awareness of immune challenges such as alloimmunization and transfusion related acute lung injury this title bridges current basic scientific discoveries and the potential effects seen in blood recipients compiles the knowledge and expertise of dr robert maitta an expert in immune responses and antibody function structure studies helps clinicians in the daily practice of caring for patients in need of transfusion support as well as physicians in training when considering utilizing blood transfusions in a limited scope or in the setting of massive transfusion includes an immunology primer as an introduction to in depth chapters covering allergic immune reactions to blood components transfusion related immunomodulation fetal and neonatal alloimmune thrombocytopenia and neonatal neutropenia complications of haploidentical and mismatched hsc transplantation chimeric antibody receptor therapies and much more consolidates today s available information on this timely topic into a single convenient resource

la géographie française s est toujours refusée à aborder la question écologique sous un angle véritablement politique pourtant devant les crises environnementales qui se multiplient et face au spectre de l écolo scepticisme qui hante la pensée politique française la géographie peut et doit se refonder ce manifeste pour une géographie environnementale marque une volonté collective de dépasser les pratiques individualisées pour interroger la place épistémologique et politique d une géographie confrontée à l irruption de l environnement il aborde l histoire de la discipline dans ses relations aux politiques de la nature développe des comparaisons internationales notamment avec la political ecology et introduit les grands domaines d investigation d une géographie à l appareillage conceptuel renouvelé par les politiques de l anthropocène il montre que les géographes doivent abandonner une position surplombante pour accepter que leur discipline soit transformée par l environnement seul moyen pour elle d être scientifiquement et politiquement pertinente dans le monde d aujourd hui ne cesse de se renégocier au fil du temps des événements de la vie des jeux entre conscient et inconscient entre individu et collectivité entre passé et présent dans cette chaîne permanente de recompositions personnelles comment les croyances évoluent elles À quelles injonctions obéissent les ruptures ou les continuités dans la transmission des convictions politiques réflexions croisées de sociologues politistes philosophes historiens et psychologues sur nos identités politiques de plus en plus mobiles les contributions de cet ouvrage donnent à voir les ressorts des changements politiques qui façonnent l histoire comme les histoires de vie il met au jour la manière dont le politique est travaillé par le temps qu il s agisse du temps collectif des générations ou de celui plus intime des âges de la vie
